

# SERVICE AND SUPPORT

Our trained service technicians, diverse parts inventory and unparalleled selection of service options can help reduce your total cost of ownership, while keeping your forklift trucks performing at their best. That means improved productivity and a better bottom line.

### Superior Product Support

No matter the size of your fleet, our Lift Truck Solutions online tools are designed to help you make intelligent decisions regarding your forklift fleet - from monitoring forklift expenses and tracking improper equipment use to shopping for parts 24 hours a day, 7 days a week.

### Full Maintenance Coverage

Our Full Maintenance program includes all the benefits of the Master Maintenance program and covers all designated repairs for one low monthly rate\*.

### Master Protection®

Our Master Protection program offers an extended powertrain warranty for added protection from unexpected and costly failures of covered powertrain components. Three-, four- and five-year policies are available.

### Parts For Your Entire Forklift Fleet

**OEM Parts** – Meeting original equipment standards, all Mitsubishi forklift truck parts also come with a six-month, unlimited hours warranty.

**Promatch® Parts** – Your single source for reliable replacement parts, no matter which forklift brand you operate. With thousands of part numbers in stock. Promatch parts are carefully selected and routinely sampled and inspected and backed by an extensive six-month, unlimited hours warranty.

**Remanufactured Components** – Providing same- or next-day availability without sacrificing on performance, so you can get back to work quickly. Each part is remanufactured using the latest manufacturing techniques and backed by a new parts warranty.

# SELECTION GUIDE

# DELIVERING EXCEPTIONAL VALUE.

**2,200 - 8,000 lb. Capacity  
Electric Walkies & Stackers**  
Designed for indoor travel where  
work spaces are congested and floor  
loading is common.

**2,200 - 4,500 lb. Capacity  
Reach Trucks &  
Order Pickers**  
Maximizing warehouse space, these  
trucks operate in aisles less than 10  
feet in width and reach up to 374  
inches high. Excellent for both storage  
and order picking applications.

**3,000 - 6,500 lb. Capacity  
Electric Counterbalanced**  
These forklifts are designed with the  
latest AC technology, along with top  
travel, lift and lowering speeds. This  
series is ideal for loading and unloading  
trailers, dock to stock and long shuttle  
applications.

**3,000 - 15,500 lb. Capacity  
Internal Combustion  
Cushion Tire**  
The first choice when operating  
indoors, these forklifts can handle  
a wide range of applications in a  
variety of industries – from general  
warehousing to lumber and paper.

**3,000 - 7,000 lb. Capacity  
Internal Combustion  
Pneumatic Tire**  
Primarily operating outdoors and on  
diverse surface conditions, these  
trucks are built to work – from lumber  
and construction material to brick and  
concrete.

**8,000 - 36,000 lb. Capacity  
Internal Combustion  
Pneumatic Tire**  
When handling heavier loads, you  
need a forklift that will provide greater  
torque and increased power to get  
the job done. This series of forklifts  
will do just that.
