

iLOAD Training

**Interactive. Lift truck.
Operator. Aptitude. Distance
(socially distanced training)**

We now offer Online LIVE INTERACTIVE OSHA Forklift Operator Safety Training. PMT Forklift Corp. has been the leader in the Metro NY and Long Island Area for OSHA Required Forklift Operator Safety Training. PMT Forklift saw the need for convenience during this time, and we delivered.

Real Time, Contactless, Socially Distanced, LIVE - Interactive Instructor led online training.

In this time of Social Distancing, your company may not be able to have all your employees in a confined space. Maybe they are working staggered or shortened shifts. Maybe some are working from home. Wherever you are in New York, or anywhere in the United States, we can certify your operators. Flexible scheduling and you don't have to have all your operators in the same space at one time.

We bring the training right to your PC, Laptop, Tablet, or Smartphone.

Your operators will get the full training experience INCLUDING lift truck operation observation which is THE vital part of OSHA requirements. This is not a 'watch a video or some slides and click on some questions' class. Our instructor leads you in the class with full interaction and Q & A. We detail the class to your company's needs and application.

Classes offered for all classes of lift trucks Lull or boom reach forklifts, Scissor lifts and Aerial Lifts.

HOW IT WORKS:

1. Schedule a class time slot
2. Materials are emailed or mailed to you.
3. On class schedule date and time, students log in to the secure private link provided to them.
4. Students will be in a zoom style class.
5. Class is done live with video sharing and interaction.
6. Students go through workbook live with instructor.
7. Students receive instruction on practical observation as well as link to samples.
8. Video files are uploaded for review to private link. (students have 10 days to upload video)
9. Instructor reviews video
10. Certificate of completion and wallet cards mailed to company upon completion.

FREE Physical Follow Up Consultation (NYC and LI Classes) once NY Forward resumes.

FREE equipment safety inspection (Online or in person for NYC and LI Classes) once NY Forward resumes
